CLEVELAND
IN DANGER
OF FAMINE

Forest City Short of Flour and Miscalculation of Dealers May Precipitate a Real Famine.

By Associated Press Dispatch.

Cleveland, O., November 20.—Cleveland is facing a serious flour shortage, dealers say, and any miscalculation might leave the city absolutely without flour within a week.

Wholesale grocers are said to have but a few days' supply on hand, where ordinarily they keep from 30 to 40 days ahead, and with the present demand the surplus will be wiped out unless incoming shipments increase.

Dealers say the railroads are unable to deliver orders on account of freight congestion, and that should severe cold or a blizzard interfere with traffic between this city and the Northwest, Cleveland would be without flour.

DISTRIBUTE ASHES
OF HILLSTROM

I. W. W. Convention Attendants Receive Their Envelopes.

By Associated Press Dispatch.

Chicago, November 20.—One hundred and fifty envelopes, containing ashes of Joseph Hillstrom, were distributed to as many delegates to the tenth annual convention of the I. W. W., which opened here today.

The ashes will be scattered by the delegates and by locals of the I. W. W. to which 450 other envelopes were mailed, according to the wishes of Hillstrom, who was executed in Utah for murder.

MORRIS WILL
BE SECRETARY
TO GOV. COX

Gen. Geo. H. Wood, of Dayton, May Again Be Adjutant General.

By Associated Press Dispatch.

Columbus, O., November 20.—George H. Wood, of Dayton, Adjutant General of Ohio during the first term of Governor Cox, is to be again appointed to that position, according to unofficial information received here today.

The only appointment Governor-elect Cox has officially announced as yet is that of Charles E. Morris, who is to be the Governor's private secretary, at \$6,000 a year.

Morris has been publicity director for the Democratic State Committee for two years.

Leading Agricultural Authorities of Canada and United States Meeting at Albany, New York

Consider Subjects of Deep Interests to the People of Both Countries.

By Associated Press Dispatch.

Albany, N. Y., November 20.—Representatives of the United States Department of Agriculture and of agricultural departments of Canada and more than a dozen states began a two days' session here today, in an effort to devise ways and means for preventing the spread of white pine blister rust, which threatens pine trees valued at \$260,000,000 in the eastern and northern belt.

Wilfred Wheeler, Secretary of Agriculture of Massachusetts, presided, and officials of forestry and agriculture from a number of states, including Ohio, were present.

Reports presented showed that the disease had been found in all of the New England states, New York, New Jersey, Pennsylvania, Ohio, Indiana, Wisconsin, and Minnesota, and in the Canadian provinces of Ontario and Quebec.

Noted Suffragist Leader's Condition Takes Turn for Better.

By Associated Press Dispatch.

Los Angeles, Cal., November 20.—Mrs. Inez Milholland Boisseval, New York, suffragist, who has been critically ill here for more than a month, was reported much improved today. She is, however, not yet out of danger, it was said.

SARRAIL'S ARMY
WILL "FOLLOW UP"
MONASTIR VICTORY

German Bulgarian Forces Which Evacuated City Still Retreat, According to Paris.

Many Prisoners and Much War Material Taken By Victors.

Petrograd Admits Roumanian Retirement in Jiu Valley.

Operations in France at a Comparative Standstill.

(Associated Press Cable.)

LONDON, NOVEMBER 20.—THE VICTORY OF GENERAL SARRAIL'S ARMIES ON THE WESTERN END OF THE MACEDONIAN FRONT, WHICH RESULTED YESTERDAY IN THE CAPTURE OF MONASTIR, IS BEING VIGOROUSLY FOLLOWED UP.

The German-Bulgarian forces which evacuated the city as the result of the successful flanking movement by the Entente forces are still in full retreat, Paris reports today, and are being relentlessly pursued.

Already, several towns north of Monastir have been taken by Entente troops pushing out from the city, and prisoners and war material captured.

Press dispatches depict Monastir as virtually destroyed by fire and explosions and deserted by the population, and describes the retreat of its defenders as a rout.

Berlin, however, declares the new position chosen north of Monastir was occupied without Entente pressure being felt and adds that fresh German forces have arrived on the scene.

It asserts further that Serbian attempts to advance along the Moglenica front, east of Monastir, were defeated.

The position of Roumania appears increasingly precarious. General von Falkenhayn's armies are continuing to advance and force their way southward from the Transylvanian border, and Petrograd admits a further retirement of the Roumanians in the Jiu Valley region.

Near Dragoslavele, northeast of Campulung, the Roumanian troops appear to be offering their most stubborn resistance, but Berlin declares the Roumanian attacks have been fruitless.

The greatest peril to the Roumanians apparently lies in the reported cutting of the railway from the Danube to Craiova, threatening the flank of the Roumanian army south of Vulcan Pass and making the position of the Russian army at Orsova hazardous.

"Flood Lighted" Liberty Statue Will Be a Permanent Beacon

STATUE OF LIBERTY "FLOOD LIGHTED"

On Dec. 2 the statue of Liberty will be "flood lighted" with electricity, and thereafter the entire monument will be a shining beacon instead of the torch only, as has been the case in the past. President Wilson has consented to be present when the statue is lighted up as one of the features of "America's electrical week" Dec. 2 to 9. Members of the cabinet, governors distinguished members of the diplomatic corps,

headed appropriately by its dean in Washington, the French ambassador, M. Jusserand, and noted civic and industrial men, will be present. Ex-Senator Chauncey M. Depew, who with President Grover Cleveland, attended the unveiling of the statue thirty years ago, will make one of the addresses of the evening. It is planned to assemble the entire Atlantic fleet in New York harbor on that night.

France apparently has brought operations there to a virtual standstill. Neither London or Paris report any news of importance during last night.

Berlin, however, mentions British failures to gain ground yesterday in attempts north of the Ancre and the repulse of a French attack.

It also declares the British were driven from the western portion of Grandcourt, south of the Ancre.

NOTABLE IMPORTANCE

(Associated Press Cable.)

LONDON, NOVEMBER 20.—The capture of Monastir by General Sarrail's army in Macedonia is looked upon by Entente military writers as of notable political importance, but opinions seem to be divided as to whether it will be followed by military developments of sweeping character.

Events of the next day or two are expected to show whether the capture of the Macedonian capital will require a period of rest before starting a new advance, or whether the pursuit of the retreating German-Bulgarian force is to be pressed despite adverse weather conditions.

In some quarters an advance by the Entente forces along the road to Prilep is forecast, to be followed by a thrust from Prilep toward Negotin.

with the object of outflanking the Bulgarians and opening up the frontier passes northwest of Saloniki.

GREEKIAN AFFAIRS

The situation in Greece apparently has reached another of its critical stages.

Following the demand by the Entente for the turning over of virtually all the arms, artillery, and munitions of the Greek army, it is reported today from Athens that the ministers of the Central Powers have been ordered by the Entente authorities to leave Greece by Wednesday.

Ruth Law Brings Flight in Air Plane to Successful End

By Associated Press Dispatch.

New York, November 20.—The record breaking air plane flight of Ruth Law, begun yesterday in Chicago, terminated at Governor's Island here at 9:40 A. M. today, after stops at Hornell and Binghamton, N. Y., yesterday.

The final 152 miles from Binghamton to this city was covered this morning in two hours and twenty minutes, and the entire journey, 832 miles in an air line in the actual flying time of nine hours and one minute.

THE GREETING

Miss Law was greeted on her arrival by Major General and Mrs. Leonard Wood, who congratulated her on her achievement. She was considerably chilled and was taken to the house of one of the officers at the post to recuperate.

She had little to say about her flight, except that she had to fly much lower than she wanted to on account of a haze.

In the present flight Miss Law bettered the non-stop record set by Victor Carlstrom, November 2, by about 100 miles, making the flight of 590 miles in an air line from Chicago to Hornell, N. Y., where she arrived yesterday without stopping.

OFFICIAL TIME

The official time for the arrival of Miss Law was given as 9:37, 35, by members of the Board of Governors of the Aero Club of America.

No attempt was made by the club to compute her actual flying time or average speed, but it was unofficially estimated that she averaged about 92 miles an hour for the entire distance.

JURY HAS
HIGH COST
PROBE ON

Federal Grand Jury At Chicago Has Seized the Account Books of Dealers.

By Associated Press Dispatch.

Chicago, November 20.—The federal grand jury before which evidence concerning the advance in the cost of food will be presented was sworn in here today.

Special agents of the Department of Justice who last week seized books of two cold storage warehouses received further records today from warehouse men who voluntarily turned them over.

While produce dealers of this city and of the Middle West, generally, are complaining of a shortage of supplies, the Government agents are said to have learned that cold storage plants are gorged with stores.

The agents are seeking to learn if there is collusion between warehousemen and dealers to keep supplies short on the market in order to raise prices.

SUB SEA BOAT
READY TO GO

Awaits Only Filing of Bond to Secure Attachment Claim

By Associated Press Dispatch.

New London, Conn., November 20.—Deputy Sheriff J. H. Tubbs was waiting today, it was said, for the filing of a bond that would release the submarine Deutschland from the \$12,000 libel brought by the T. A. Scott Company, owners of the tug T. A. Scott, Jr., sunk by the submarine, in order that he might serve attachments on the Deutschland in four damage suits aggregating \$175,000, being brought in the interest of the families of the members of the crew that lost their lives in the sinking of the tug.

It is said the damages met with by the Deutschland in the accident are about repaired.

BRYAN OPENS
DRY BATTLE

Fight to Make Chicago Dry Formally Launched.

By Associated Press Dispatch.

Chicago, November 20.—A "Dry Chicago" campaign was opened today with an address by William Jennings Bryan before a meeting of the Dry Chicago Federation.

Mr. Bryan was asked as to the report that he was to move his home to Asheville, N. C.

"I don't mind denying it again," said Mr. Bryan. Why should anyone leave a nice dry state like Nebraska? My home will remain at Lincoln. I will do my voting there."

STREET LIGHTING BID NEAR \$8000

Only One Bid Submitted for Lighting City's Thoroughfares and Bid Will, In All Probability, Be Accepted.

Indications are that the cost for lighting Washington's streets under the new system proposed will be approximately \$8,000 per year, or approximately the same amount as is now being paid for the antiquated system of lighting.

Bids for the street lighting were opened Saturday, and The Washington Gas and Electric Company was the only firm submitting a bid for the service. There is every indication that this bid will be accepted by the Board of Control and the board's action approved by the council.

The bid of the company was \$25 for the 100 candle power lamps and \$35 per year for the 250 candle power lamps, to be burned every night, whether the moon is shining or not, on a 4,000 hour schedule. The bid is on a ten year contract.

The ordinance passed by council provide for 165 of the 250 candle power lamps and 70 of the 100 candle power lamps.

For the 70 lamps the cost would be \$1750 per year, and for the 165 lamps the cost would be \$6,270 per year, or a total cost of \$8,020 per year for the lighting.

If the contract is made The Washington Gas & Electric Company will begin work just as quickly as the material can be obtained, and will push the work to completion within the next few months, so that the present antiquated lamps may be replaced by incandescents, and the large percentage of outages eliminated.

FUNERAL SERVICES CONDUCTED MONDAY

The funeral services of Mr. L. P. Saxton, held at the residence on N. North street Monday morning were very largely attended. Knights of Pythias and G. A. R. comrades joining with friends of the deceased and his family.

Rev. Arthur P. Cherrington conducted a brief service, reading the hymns.

It was followed by the impressive ritual services of the Knights of Pythias in charge of Knights W. O. De-

heart, Albert Barney and Bert Bevan. There was a profusion of beautiful flowers, from relatives and friends both here and in Toledo. One of the most beautiful designs was the floral emblem of the Knights of Pythias.

The Knights also conducted the burial service, the interment in the family lot of the Washington cemetery.

The pall-bearers were Messrs. E. J. Light, J. H. Culhan, H. V. Rodgers, T. J. Lindsey, W. D. Blackmore, Frank M. Bateman.

The only son, Dr. Guy Saxton, and wife of Toledo, and Mr. Frank M. Bateman and family Mrs. John Schumm, Mrs. Ben Lukens and daughter, of Middletown, Mr. Add Burnett, of Columbus were here for the funeral.

UNION SESSION IS LARGELY ATTENDED

The union meeting held at Grace M. E. Church, Sunday night, was largely attended and one of much interest. Dr. B. H. Shaddock delivering a sermon of much strength which appealed to those who heard him.

On the platform with Dr. Shaddock were, Rev. Cherrington, Rev. Gage, Rev. Grove, Rev. Reynolds and Chairman of the Campaign Committee, Walter Patton. All participated in the union services, and large delegations from all churches formed the big audience.

Rev. Gage spoke for a few minutes concerning the Evangelistic campaign to be conducted in this city.

Chairman Patton introduced Dr. Shaddock who spoke for some 40 minutes, confining himself to his sermon and saying little concerning the campaign.

POPEJOY WILL IS PROBATED TODAY

The will of the late Lewis Popejoy was probated Monday morning, and the bulk of the estate is left to nephews and nieces. Dr. W. E. Ireland is made executor. No bond was required of the executor.

The will bears date of February 17, 1916, and a codicil attached bears date of May 15th, 1916.

In the will the testator first makes provision for the payment of all debts and funeral expenses, after which he gives to his niece, Jane Anne Rogers Jones, \$2,000 in cash. To his niece, Martha Rogers, is given \$2,000 in cash. To Thomas Wain \$100 is given in the will, but this is revoked in the codicil. To Thomas Lee is given \$100.

He directs that all property, both personal and real, be sold by the executor at private or public sale, and that the legacies above mentioned first paid, after which the remainder is to be divided equally among his nieces and nephews, with the exception of his two nieces, Mary McCoy and Frankie Lovell. The two nieces first mentioned as receiving \$2,000 each are to share in the distribution of the remainder of the property also.

In the codicil the legacy to Thomas Wain is revoked and to Jennie Lee is given \$500 and to her daughter, Hazel Lee, \$100, providing they remain with him and care for him until his death.

MINISTERS OF THE COUNTY HOLD MEET

More than a dozen of the pastors of the city and county churches met in conference at the Y. M. C. A. Monday morning, and the chief topic under discussion was the Bromley Evangelistic campaign, and how all could best aid in making it a success.

Rev. Harper, Rev. Pfaltzgraf and Rev. Wilson were named a committee to arrange for a county-wide auto tour during the first week of the campaign.

Quite a number of the rural churches are planning to assist in the campaign, and matters are now being shaped to this end by the pastors of these churches.

In Social Circles

The announcement of the marriage of Miss Pauline Dale and Mr. Frank Jamison at Newport, Ky., Sunday is eliciting much interest in both Washington C. H. and New Holland circles.

The bride is one of the attractive younger girls of this city, the daughter of Mr. and Mrs. Will E. Dale.

The bride-groom is the son of Mrs. Lon Mark, of Washington, but has been making his home with his grandparents Mr. and Mrs. James Vlerebome, prominent resident of New Holland.

The young couple were accompanied to Newport by Miss Faye Williams of this city and Mr. Howard Willoughby, of Mt. Sterling.

Mr. and Mrs. Jamison left on the evening train for a wedding trip to Chicago and Indianapolis, upon their return they will make their home here.

Their many friends in both places are extending best wishes.

"FALL OF A NATION" AT THE WONDERLAND

Tuesday and Wednesday.

"The Fall of a Nation" which will be presented for the first time at this Theater tells a vital story of international significance. A confederation of European powers decides to seize North America and annex it to Europe. A secret army, of the foreign-born is raised in New York. As the greatest city of the North American states has few armed defenders, it is an easy task to capture it over night.

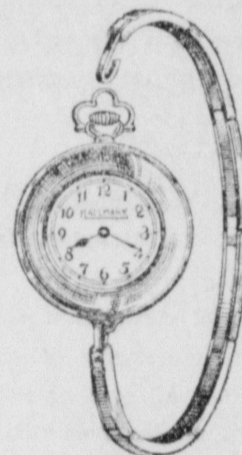

Mean while 150,000 trained troops, fresh from the European wars, are

rapidly transported across the Atlantic with all their equipment of great guns, poison gases, liquid fire and bombs.

Effecting a landing, they easily vanquish the small North American Army, join the foreign-born conquerors of New York, and march to Washington where they depose the President and put in his place the "Imperial Viceroy of the Province of North America. This picture will be shown two days, matinee at 2:30, Tuesday and Wednesday, admission 25 cents.

A New Poland

The generous intentions which Germany, Austria and Russia have concerning the rehabilitation of Poland seems to be just a little too well and too insistently advertised to be without purpose.

Germany and Austria being right now in possession of Poland are in a position to make a more satisfactory demonstration of their intentions.

Poland could furnish hundreds of thousands of good fighting men to either one of the belligerents and the whole hearted entrance of the Polish people into the struggle would be of immense assistance to the side with which they cast their lot.

With their kingdom dismembered and territory divided among Germany, Austria and Russia the Poles have suffered cruelly from the oppression of the great powers for decades.

Naturally they are a little skeptical of the good intentions regarding the restoration of Poland which each one of the belligerents is so loudly announcing.

The warring nations strive to out do each other in promising a new era to Poland.

The Polish people though cannot forget in the bright promises held out for the future the outrages of the past and are loath to accept the major part as true in fact.

A Legislative Probe

Already there are rumors that at the coming session of the legislation of the state there will be a "probe" of the various state departments the investigation to cover the term of the present state administration.

If such an investigation is begun it can only be for political effect.

The costly and offensive legislative probe of two years ago is fresh in the memory of the people of the state and they are not anxious for another of the same sort.

The so called investigation launched soon after coming into power contributed, in a great measure, to discredit the present state administration and result in its repudiation at the polls.

Not one time in a thousand do these legislative probes result in any thing more tangible than an expenditure of thousands of dollars of the peoples money an opportunity for cheap politicians to strut about in the spot light of publicity and, under cloak of authority, unjustly insinuate that honest public officials have been guilty of wrong doing. The whole object and intent, as a rule almost without exception, of these probes is to build up political capital for future use.

If politicians could only realize that the effect is exactly the opposite from that which they hope to attain, the legislative probe would soon be a thing of the past.

The incoming state administration will do well for itself and confer a favor on the people of the state at the same time if it turns down all suggestions of a legislation probe.

If any official has been guilty of wrong doing the courts are open to consider prosecutions and investigations can be made in a manner which protects honest men from the slander of ward heelers who have been given authority beyond their mental and moral capacity.

Ohio wants no more "legislative probes."

The Postoffice Building

The order received by postmaster Murry last week to have the postoffice building site cleared of all obstructions and ready to commence building within sixty days from December first sounds like real business.

We must remember, however, that the government moves very deliberately in such matters and the order to "clear the way" does not mean that work on the new structure will proceed at the same rate of speed as that which usually obtains in the construction of buildings by private citizens.

We must prepare ourselves if we have not already done so for many delays before the new postoffice building is completed. The government never rushes its work.

We are going to have a new postoffice building—that's certain. When it will be ready for occupancy is another matter.

The federal authorities are moving, however, in the right direction. The notification to Postmaster Murry is proof of that much and that's considerable consolation.

Poetry For Today

TO CURE A GROUCH.
When you're feelin' blue and scrappy
an' everyone you meet
Sort o' turns aside to give you room
a passin' long the street.
When you're snappy an' you're scrappy,
on your shoulder rests a chip.
Let me tell you somethin'—listen—
here's a friendly sort o'tip:
Just hike off to the autumn woods
where all is clean and still
An' stop a while an' listen to the
wild birds as they trill.
Just watch the squirrels scamper an'
just see the rabbits run
An' gather up some goldenrod a shin-
in' in the sun.
Just for the once forget about the
world of sordid things.
Just fancy you're a wild thing with
the joy a wild life brings.
Just kick your heels an' holler or just
whistle some glad tune
An, dart around as happy as a butter-
fly in June.
That's the way to work a grouch off—
get away to Nature's joy—
Let her take you by the hand just
like she did when a boy.
Forget the money makin' an' the
fightin' all the way—
An' be a child of Nature if it's but for
half a day.
Get close to God an' simple things an'
just once try to be
A little brother to the fox, the quail
and chick-a-dee.

PRESIDENT BOYD HAS FIGURED IT ALL OUT

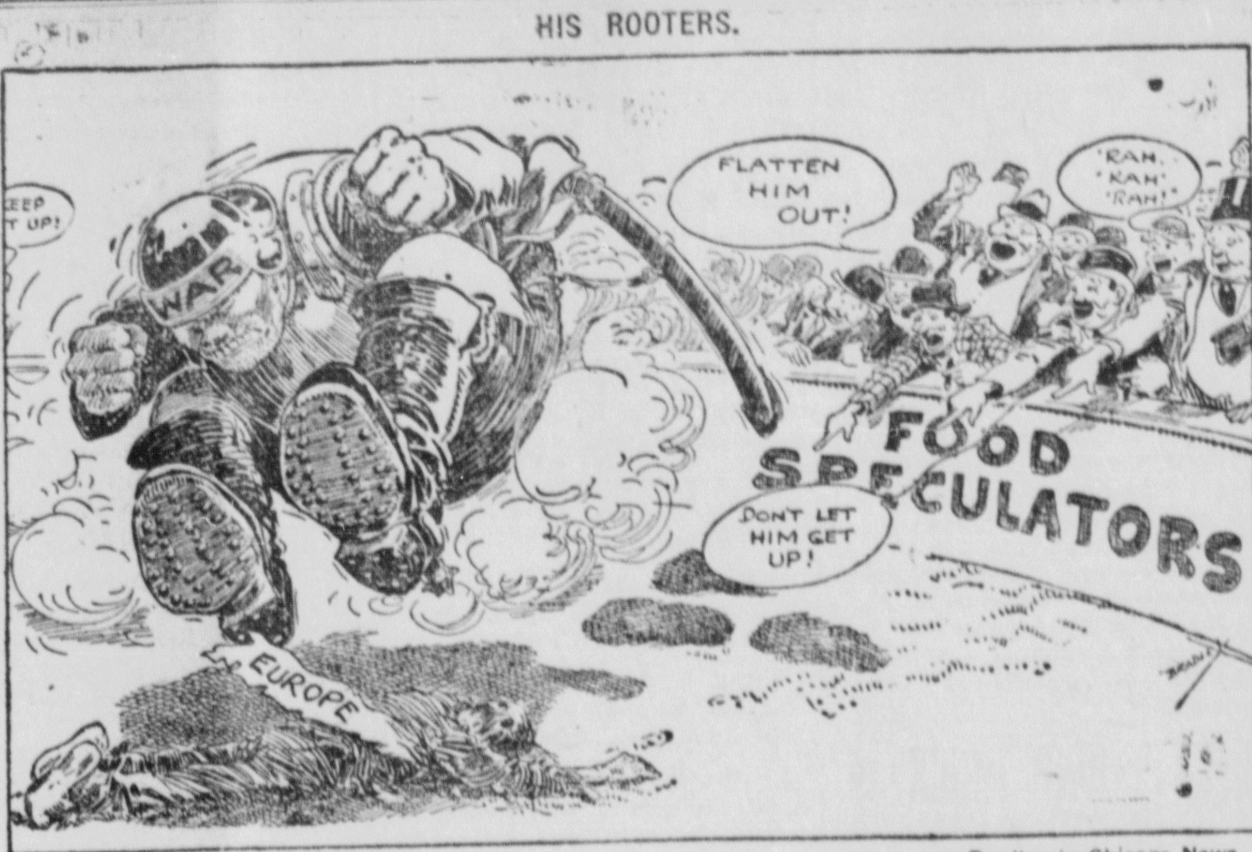

Oxford, O., November 20.—Dr. W. W. Boyd, president of Western College here, has figured out that the average college requires an income of \$200 per student and that where dormitories are maintained there must be 250 square feet of space for each student, 25 square feet additional for class rooms, 50 square feet additional for laboratories and 20 square feet additional for gymnasiums, or a total of 245 square feet of house room for each individual for all requirements. A college of 100 students should have not less than \$400,000 endowment, one of 500 students not less than \$2,000,000 endowment, and so on up, according to Mr. Boyd.

Having studied the entire field of endowed colleges in the United States Dr. Boyd makes the observation that the growth of endowments has been proportional to the growth of wealth of the country. The total endowment of all the colleges in the United States in 1900 was \$150,000,000 while in 1916 it was \$370,000,000.

Relatively the growth of endowments among American colleges is very recent. Mr. Boyd finds that in 1830 Yale had only \$30,000 endowment and was carrying a debt of \$13,000. In 1870 the endowment was still less than three-quarters of a million dollars. In 1900 it had become \$5,000,000 and in 1915 it was \$15,000,000. Harvard in 1840 had \$1,600,000 and now has thirty-two million. In 1900 only 20 colleges had \$1,000,000 or more in endowment. Now 71 have more than that amount.

JAP IS TRANSFERRED

Peking, China, November 20.—Yukuchi Obata, councillor of the Japanese legation in Peking, has been transferred to the foreign office in Tokio, where he will act as director of the political bureau. Mr. Obata will be succeeded in Peking by K. Yoshizawa, formerly chief of protocol in the foreign office at Tokio.

SEINING CASES ARE UNDER WAY

About 9:30 o'clock Monday morning the seining cases against the Sabina men were taken up before Justice T. N. Craig's court, and in order to have ample room, court was transferred to the Probate Court room, where a large number of persons watched the proceedings with a great deal of interest, nearly a score of members of the Fayette County Fish and Game Protective Association being included with the spectators.

Among the first witness placed upon the stand was erstwhile Deputy State Game Warden, H. D. Pavey, whose commission was taken from him by the State Board of Agriculture as a result of his part in the alleged offense.

Mr. Pavey did not know to whom the 90 foot seine belonged, but stated that it was not his, although the seining was done under his direction, and that the party of ten men were seining for carp. He stated that while they were "eradicating" carp, they also caught a dozen or more of Bass. He declared these bass were thrown back. He said the carp were placed in a sack, and taken to Sabina, where they were weighed and tipped the scales at 64 pounds. He admitted that he no longer was a Deputy State Game Warden, but stated that he was at the time the seining was done. He did not claim that he had permission from the State Department, or Chief Warden, to do the seining.

He stated that all of the men assisted in the seining, and that they had taken part in the seining at his request, or invitation.

The witness were separated, and

GENERAL QUARANTINE AGAINST SMALLPOX

URGES MORE MONEY FOR PARLIAMENTARIANS

(Associated Press Cable.)
The Hague, Netherlands, November 20.—To prevent irregular attendance in the Second Chamber of the Dutch Parliament the Prime Minister, Mr. Cort van der Linden has brought forward the proposal that members shall be paid an extra fee of \$2 for every sitting they attend. He proposes also that the yearly salary of members shall be raised from \$800 to \$1,200, with right to pension.

According to the Dutch Constitution, not only is the Chamber debarred from taking any decision unless more than half its members are present, but it may not even deliberate. The "absenteeism" has not only sometimes prevented parliamentary sitting opening at the appointed hour, but has even occasionally entirely stopped the Chamber from proceeding with its business.

Several hundred of them have been appointed as hygienic instructors, as sanitary inspectors of homes and factories, and as enforcers of the sanitary and other regulations introduced by the German regime. The women also give special attention to measures for combating the social evil.

At the outset it was found very difficult to discover women trained to this kind of work. They have, however, proved themselves extraordinarily adaptable and have come to be what General von Bissing describes as a humanizing link between the Belgian population and the governing machinery.

EGGS

Already eggs are selling at 60c to 75c a dozen in the cities. Some are predicting \$1.00 eggs before spring. Do you desire to get your share of these big profits? If so, make your hens lay by using the wonderful preparation "Prescription No. 4." It will fill your egg basket.

Why feed hens all winter and get only a few eggs? By its use a hen may be made to lay her entire life crop of eggs in one or two years. The normal time is five years. Absolutely harmless.

Saves Feed. If directions are followed, it saves all the cost of oyster shell, all the cost of beef scrap, and all the cost of charcoal. It contains no pepper, mustard, waste, or other injurious substances.

Insures easy, early and quick moult. It prevents and cures the egg-eating habit. Five pounds of Prescription No. 4 contains more egg-making material than a ton of oyster shells and 25 pounds of beef scrap combined.

Try it four months, and you will get more eggs than you ever have before in the same length of time and season of the year.

Columbus, Ohio.
It is a wonderful egg producer and feed saver as well. Many of our hens layed right through the moult last year, thanks to your Prescription No. 4. We have a capacity for 20,000 layers and intend to use it throughout our plant.

GAME WITH XENIA WAS LIKE TAKING CANDY FROM BABES

Washington Easily Takes Xenians Into Camp on Their Own Field, Piling Up 49 Points to Paltry Seven Won By Xenia.

In a decidedly interesting contest Washington defeated the Xenia eleven Saturday afternoon by a score of 49 to 7. After the first quarter in which Xenia made their only score, the game was very uninteresting for the Xenia rooters.

Washington's offensive all through the game showed up well while Xenia's defensive was ragged only in the first quarter. Washington backs made repeated gains of five to twenty yards through Xenia's right side.

Washington received and by a series of line bucks worked the ball to the ten yard line where they lost it by fumbling. Xenia in turn lost the ball and McFadden pushed over his first score.

On the next kickoff Xenia started their march down the field, pounding Washington's left side. On the five yard line Washington was penalized half the distance to the goal for "unnecessary roughness." Barnett then earned the ball over for their first and only score. In the second quarter W. H. S. started R. Willis made an end run around Xenia's right, scoring the second touchdown of the game. Strevey bucked line for the next score R. Willis kicked goal, the only goal made during the game. There was no more scoring during the half.

In the second half, W. Willis started the scoring with an end run being followed by a line buck by McFadden. In the fourth quarter Capt. McDonald ran through the entire Xenia team, 75 yards for a touchdown being followed in the scoring by Lewis and McFadden.

Shortly after the whistle blew, ending the game.

Xenia has several good individuals but as a team not much can be said. Barnett and Curry starred in the back field; also right end Bell. This game closed the out of town games and the score made Saturday was the only one made by opponents while at home.

Lineup and summary—Xenia—Bell, re; Der, rt; Walker, rg; M. Tillis, c; Frey, lg; Ferguson, lt; Kernan, le; Vannorsdall, q; H. Willis, rh; Barnett, lb; Deane, fb.

Washington H. S.—Giddings, re; R. Willis, rt; Laughlin, rg; Weaver, c; Wetzel, lg; Burnett, lt; Lewis, le; McDonald, q; W. Willis, rh; Strevey, lb; McFadden, fb.

Substitutes—Washington: Harper for Gidding; Xenia, Curry for H. Tillis; Ballantyne for Der.

Touchdowns—Barnett, 1; McFadden, 3; R. Willis, 1; W. Willis, 1; Strevey, 1; Lewis, 1; McDonald, 1. Goals—Curry, 1; R. Willis, 1.

CRITICAL CASES ARE PENDING

President Again Takes Up Submarine Question.

FUTURE RESTS WITH KAISER

Allied Blockade and Blacklist Also Problems Demanding Attention of the Executive Department—Radical Change in American Policy Not Anticipated—Question of Concerted Neutral Action Also Discussed.

Washington, Nov. 20.—President Wilson will take up at once a number of international problems of great importance. He must decide how the United States shall meet the German submarine question on the one hand and the entente allied trade restrictions on the other, whether the retaliatory legislation shall be enforced, whether the traditional theory of isolation shall be abandoned for concerted neutral action, and whether the country shall have an aggressive or a passive policy toward the peace conference, the war-after-the-war, and the Permanent League to Enforce Peace, which the president has accepted in theory.

Most spectacular and disquieting of the problems is the submarine situation with Germany. Five critical cases are pending, one involving a loss of six American lives, two others involving American ships. Increasingly serious is the fast growing conviction that any kind of general submarine warfare, even if complying with the inadequate rules as to giving warning and affording some measure of safety of passengers, is intolerable. Germany is known to be building submarines rapidly and there is the possibility of a starvation campaign against England. Its effects would concern all nations. The United States might find it difficult to avoid complications.

The future of the submarine situation is felt to rest entirely with Germany. With the American attitude known, the next step must come from Berlin. Two possibilities are feared: either that Germany will decide she can starve England by an undersea campaign or that she may endeavor to involve this country, and thus insure the participation in peace conferences of a generous enemy, inclined toward just peace terms.

Beyond this, the Lusitania case remains unsettled. Germany has admitted liability and offered indemnity. But the delicate matter of its amount has not been settled. Attempts made to close the issue have been repeatedly blocked by unexpected new U-boat complications.

Relations with the entente allies are less clear cut, less dangerous, but perhaps more nagging. Sea power has enabled them through the blockade virtually to destroy all foreign trade hostile to them and divert all American commerce to their own uses. Constant belligerent encroachments on neutral rights have led President Wilson to say that neutrality is "intolerable." War has become so world wide, so unlimited as to national boundaries, that it is no longer the hostile army, but the hostile state, men, women and children, with its outposts all over the world, that is involved.

MUSTEROLE—QUICK RELIEF! NO BLISTER!

It Soothes and Relieves Like a Mustard Plaster Without the Burn or Sting

Musterole is a clean, white ointment, made with the oil of mustard. It does all the work of the old-fashioned mustard plaster—does it better and does not blister. You do not have to loiter with a cloth. You simply rub it on—and usually the pain is gone!

Many doctors and nurses use Musterole and recommend it to their patients. They will gladly tell you what relief it gives from sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestions, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bitten feet, colds of the chest (it often prevents pneumonia).

HE WILL NOT ALTER VIEWS

Wilson Seeks Settlement of the Mexican Muddle.

Washington, Nov. 20.—Armed with President Wilson's complete approval of his course, Secretary Lane returned to Atlantic City today determined to bring the sessions of the American-Mexican joint commission to an early conclusion. He is still hopeful that an agreement as to the border situation can be reached, but it was clearly indicated in official circles that the joint conference is entering on its final phase, agreement or no agreement.

If the commissioners find it impossible to formulate a plan, the view taken here will be that the prospect of settling border disputes through diplomacy will be remote. Officials make no predictions, however, as to what steps the Washington government might find it necessary to take in that event to insure the safety of border towns and ranches.

It is an open secret that Luis Cabrera, Carranza's minister of finance and president of the Mexican commission, has proved the stumbling block in the way of reaching an agreement. Commissioners Bonillas and Pani, it is said, have been ready to approve such different suggestions for co-operative action. Cabrera, however, held out for control of all joint operations by a Mexican military commander, a concession the American commissioners did not feel warranted in making.

FLYING HIGH

(By American Press)
Binghamton, N. Y., Nov. 20.—Attempting a nonstop flight from Chicago to New York, Miss Ruth Law, guiding a Curtiss biplane of the military scout type, shattered all American long-distance aviation records for a single flight when she flew from Chicago to Hornell, N. Y., a distance by railroad of about 660 miles, bettering by about 100 miles the record made by Victor Carlstrom on Nov. 2.

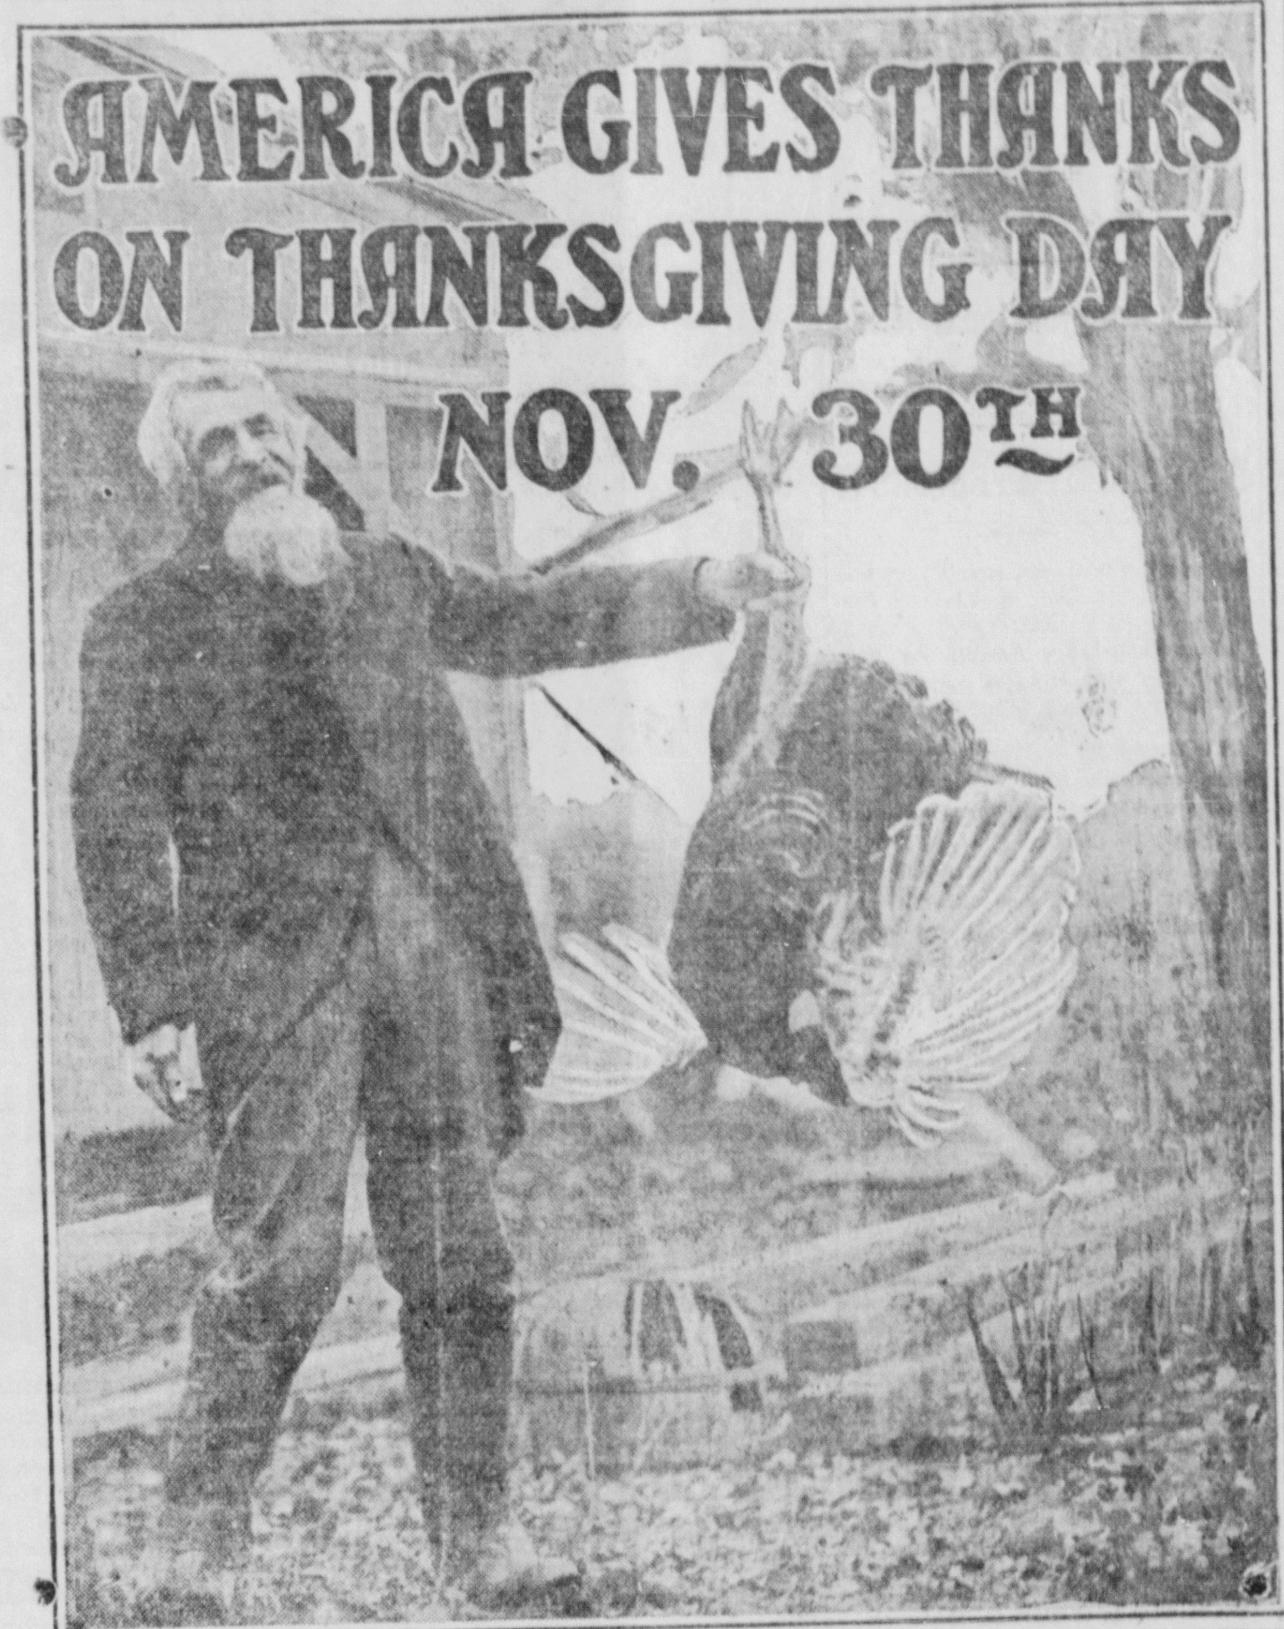

A delayed start and a cross wind that cut down her speed and forced her to descend to replenish the gasoline supply were responsible for her failure to reach New York city. Miss Law said, after her arrival at Binghamton. Previously Miss Law had never made a single flight longer than twenty-five miles. Her machine, a small biplane, has a spread of wings less than half that of the one Carlstrom used. It was not specially designed for the occasion.

WORLD EVANGELIZATION

(By American Press)
Harrisburg, Nov. 20.—Four thousand delegates gathered here today in the first meeting of Methodist Episcopal laymen and clergy of the kind to be held in the state. They represent 1,200 Methodist churches with a membership of 400,000. The study of the problem of evangelization of the world is the work of the convention. Prominent churchmen will discuss the bearing of the war on European missions.

WEAK, AILING CHILDREN

Made Well and Strong by Simple Remedy.

Here is another letter that has just come to our attention, showing the power of Vinol to build up health and strength for weak, puny, ailing children.

W. A. Smith, of Shanesville, Ohio, says:—"My little child was puny, weak and ailing, could not rest at night and would not eat. I learned about Vinol and tried it, and within a week noticed an improvement. The child's appetite improved. It slept well, strength and health were soon built up. We think Vinol is excellent for weak, puny children."

Vinol is a delicious combination of beef and cod liver peptones, iron and manganese peptonates and glycerophosphates which creates an appetite, tones up the digestive organs, enriches the blood and creates strength. Children love to take it.

We ask all parents of weak, sickly, delicate children in this vicinity to try Vinol with the understanding that we will return your money if it fails to benefit your little ones.

Specially comforting to stout persons. Blackmer & Tanquary. Advt.

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets.

These pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place.

Most headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lousy" and "heavy." Note how they "clear" the brain and how they "perk up" the spirits. 10c and 25c a box. All druggists.

Joint Congressional Committee Opens Inquiry.

MANY PROBLEMS BEFORE IT

Transportation Conditions, Wages and Hours of Labor of Railway Employees and Feasibility of Government Ownership Among the Subjects to Be Aired—Committee to Make Its Report Next January.

Washington, Nov. 20.—A joint congressional committee began here today an investigation of transportation conditions in the United States.

The inquiry promises to be the most complete and thorough ever undertaken by the federal government.

The inquiry may prove to be the first serious step toward government ownership of the vast railroad systems of the country, for the committee, under a resolution passed by the last session of congress, is directed to give particular attention to this question.

The committee will inquire into the present system of railroad regulation and control through the interstate commerce commission, the financial and transportation problems confronting the railroads, and the feasibility of government ownership and operation.

Under this last head the committee will also look into possible government ownership of telegraph and telephone companies, express companies and other public utilities.

A joint subcommittee of ten, five members of the senate interstate commerce committee and five members of the house committee on interstate and foreign commerce, were in charge of the investigation when the hearings were begun today. They were: Senators Newlands of Nevada, chairman, Robinson of Arkansas, Underwood of Alabama, Democrats, and Cummins of Iowa and Brandegee of Connecticut, Republicans; Representative Adamson of Georgia, vice chairman; Sims of Tennessee and Cullip of Indiana, Democrats, and Each of Wisconsin, and Hamilton of Michigan, Republicans.

Probably the problem of most pressing and immediate importance which will be considered by the committee is that of regulating the wages and hours of labor of employees of the railroads of the country. This problem, growing out of the threatened strike of operating employees of the railroads, narrowly averted by the eight hour day law put through congress in the closing hours of the last session, will be thoroughly threshed out by the commission.

Under this head all of the matters in dispute between the railroads and their employees will be considered, and both the railroads and the operating brotherhoods will be represented by witnesses. The national railway executives advisory committee, represented by its general counsel, Alfred P. Thom, was on hand today with a formidable list of witnesses and a mass of statistical and argumentative data, to present the railroads' side of the case.

In addition to these witnesses the committee will hear representatives of the United States Chamber of Commerce, the National Association of State Railway Commissioners, public utility commissions, freight and traffic associations, the interstate commerce commission, manufacturers' associations, the Farmers' Co-operative association and various other organizations.

The committee will work under pressure, with rapid fire hearings long hours and short recesses, designed to cover the entire wide scope of the inquiry as rapidly as possible. Under the resolution authorizing the investigation, the committee must present a report to congress by the second Monday in January, 1917, and every effort will be made to avoid any necessity for asking congress for more time.

TEUTONS HAVE QUIT MONASTIR

Serbian Again Establish Capital on Native Soil.

DRIVE PROVES SUCCESSFUL

French and Serbians Capture Series of Hills Surrounding the City, Making Teuton Positions Untenable. Austro-Hungarians Make Additional Gains on the Transylvania Front. Operations in Other Fields.

London, Nov. 20.—Serbians will establish their capital again on native soil.

Monastir, in southern Serbia, for which the entente forces have been struggling since the advance from their base at Saloniki began, has been evacuated by the German and Bulgarian forces and occupied by the French and a considerable number of Serbs.

The French and Serbians having captured the crest of hills partly surrounding the valley town, the Germans found their position untenable and withdrew, according to Berlin, to a new position to the north of Monastir. Unofficial advices from Saloniki say that a temporary capital of Serbia will be immediately established at Monastir. With the reoccupation of Monastir the railway line from the entente allied base at Saloniki now is in entente hands.

To the east and southeast of Monastir the French and Serbian troops continue to make gains in the Cerna river region against the Teutonic allies, having captured several other towns in this region.

On the Transylvania front the Austro-German armies at almost all points continue to make progress against the Russian and Roumanian forces or to hold them back without gains when they attack. The latest reports from Berlin say the Teutonic allies have forced the narrow mountain passes leading to the Wallachian plain of Roumania and on the Danube front near the junction of Hungary, Serbia and Roumania, have reached the Orsova-Craiova railroad. Bucharest reports a Roumanian advance in the region of Dragoslavele.

From Nov. 1 to Nov. 18 the Austro-Germans are said to have made prisoners of 189 officers and 19,318 men and to have captured 16 guns, 72 machine guns and 17 ammunition cars.

Lively infantry and artillery actions are taking place in the Dobruja region, near Silistria, on the eastern bank of the Danube, about forty miles southwest of the Tchernavoda-Constanza railway.

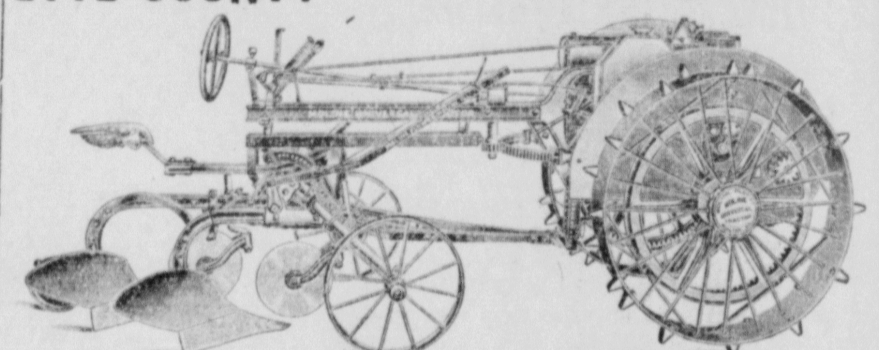

Bad weather is hampering the operations on the western front in France, but the British, nevertheless, have taken 20 additional German officers and 752 men prisoner in the Ancre sector, making their total of prisoners since Nov. 13, 6,962.

A ROUGH JOLT HANDED NEUTRAL

Berne, Switzerland, Nov. 20.—The government has made a new strong protest against the blockade and blacklist methods of the entente powers as the regulations of the allies threaten to destroy not only the export trade of Switzerland, but even the internal commercial life of the republic.

All manufacturers and exporters have been notified through the French consulates that their products in the future will only be permitted to enter France if the furnish proof that they are not of German or Austro-Hungarian descent, have no relatives in Germany, Austria or Hungary and do not trade with firms in the Teu-

him. He had told Gloria that her account of witnessing the murder was only a delirium. He had lost her confidence and her respect, and they were precious to him. He did not know that Gloria was tormented by a dual emotion toward him, one of suspicion and rancor, one of gratitude and affection. Gloria was helpless in the quarrel of her emotions. She could neither love nor hate Royce perfectly, neither trust nor distrust him.

While Gloria was at a little distance Royce was questioning Trask in a low tone, trying to persuade him to speak the truth, warning him that he might not have a long opportunity to un-bosom himself of his crime. But Trask's mouth, distorted with suffering, was also twisted with a sneer of hate. He would not even answer Royce's questions.

Pierpont had drawn Gloria to one side, and he said: "Well, now that you've got your man, what are you going to do with him?"

"Find out why he killed Dick," Gloria said, "and then turn him over to the police."

"In spite of all the publicity?" Pierpont asked.

"In spite of all the publicity," said Gloria.

Pierpont gave up the fight. He loathed the prospect of a newspaper scandal, but if it had to come, he must brace himself to endure it. He had done all that he could legitimately do, and more than that, to thwart the po-

lice, and now that the necessities of the law compelled him to give the right of way or suffer the consequences. He resolved to turn Trask over to Judge Freeman as a representative of the law and let the judge assume the future responsibility.

When the yacht reached the country house at length, Pierpont sought for Judge Freeman. He had left the house. Pierpont would have sent Trask on after him, but he was too weak to be moved farther. Besides, Royce was insistent in giving Trask the full benefit of his medical and surgical knowledge, and asked for a guest room to lodge him in.

Now Trask was stupefied indeed. He had expected that his enemies would throw him into a prison cell. And they had installed him in a luxurious chamber in a palace. And his daughter room whose fittings would have satisfied a princess. They almost terrified the poor habitant of a canal boat.

Royce decided to motor into the city to fetch his surgical instruments and bring out his assistant. While he was gone Gloria stole into Trask's room to question him, but he had passed into a state between sleep and coma, and she dared not trouble him. She found that Nell had fallen asleep, too, worn out with emotions of every sort. Gloria stole away to her own room. She was tired out, too. She felt that she was on the brink of discoveries that would mean everything to her. She was a little afraid of them.

She paused at her window, and, seeing Doctor Royce just stepping into his car, she mused on him. He was an increasingly interesting mystery to her, very much at her beck and call in some ways, and absolutely beyond her control in others.

He looked back and waved his hand. She thought he waved to her and she answered his salute. Then she saw that he was signaling to someone else and had not seen her. It was a woman he was signaling to, for he lifted his hat. Gloria wondered who it was, and felt an odd quirk of jealousy. It needed her like a stitch in the side.
